

**Elizabeth Van Hoek**

Elizabeth Van Hoek is the Population Health Program Leader at the Center for Healthcare Analytics and Performance Improvement at Trinity Health.

Ms. Van Hoek works directly with analytic teams, hospitals and provider organizations in developing and deploying risk-prediction models and implementing multi-disciplinary risk-based interventions as part of a population health framework. She previously worked as a Performance Improvement Leader focusing on unit based quality and process improvement initiatives. She is also a Crucial Conversations Instructor.

Ms. Van Hoek earned a Bachelor's in Industrial and Operations Engineering and a Master's in Health Service Administration from the University of Michigan.
